

It's time stop talking and start building!

**Reasons we are forming
a political party to specifically
address the needs of Black America.**

We have to make a decision NOW

1

It's too late for lectures and conferences.
We don't need more groups that wield no power.
We don't need a new YouTuber to entertain us.

We have 3 choices:

1. Wait for the Democrats to save us.
2. Wait for the Republicans to offer us something.
3. Create a party that will put our demands on the national stage.

What should we do?

1

This is the only logical & actionable option.

The future of Black America depends on our actions TODAY!

2

Just think about this.

If the murder rate, suicide rate, abortion rate, and divorce rate continue to increase at the same pace,
we will be completely obsolete by the year 2040.

There will be no family or community structures at all.
This will also keep our Black economy noncompetitive.
We will basically be wards of the state, still waiting for crumbs.

This sounds hopeless...

2

*If we don't act now, there will be nothing
for future generations to build on.*

We have the time, money, and energy to do this!

3

The amount of money Black America has spent on shoes, hair products, drugs/alcohol/cigarettes, designer clothes, expensive cars, jewelry, and other depreciating assets over the past 60 years could have built numerous sustainable infrastructures.

Instead, most of us spend hours of our time on the internet.
We could use the money we spend on iTunes/Amazon to fund the next round research or conduct more outreach.

Blacks spend trillions on distractions, NOT taking action!

3

Crying about a lack of time, money, or energy is a cop-out. Period.

This is the only way for our candidates to run for office.

4

The reason we have been pushing the #NOVOTE movement is to help Blacks remember the fact we have **suffered under Democratic benign neglect for over 60 years.**

As a national party, it will be much easier for us to coordinate voting blocks in key areas of the country.
We can also privately discuss places for us to form clusters.
Mass migration is an option if we have a central organization..

We must put OUR people on the ballots to fight for US!

4

**All the real action happens
in the voting booth.**

All of the preliminary research and analysis is done.

5

The Blexif Fund Think Tank has been tirelessly working to integrate the SCALE BLACK Generational Plan with the Black Agenda proposed by the #ADOS movement.

This is the first time in our history that we have a comprehensive list of demands married to a long-term action plan.

This is truly the best time to be Black in America.

This sounds good, but how can I help?

5

The heavy lifting is has been taken care of.

What do we need from YOU?

Forming a credible and relevant political party is a major task.

Using the party to change the course of Black America is the easy part.

Here are 5 ways you can help the party right now!

This is not going to be pretty

1

1 *Blood*

Don't worry, we are not talking about physical blood.
We are referring to the pain and discomfort that comes with this.
As an independent party, we will be attacked by the left and right.
We will also be attacked by Blacks in the establishment.

We need YOU to vigorously defend the party ideologies.
We stand on principles that are non-negotiable.
This will inevitably cause conflict, arguments, etc.

Are you emotionally strong enough?

True wisdom is worth more than gold

2

When you read party proposals, newsletters and other documents, look at the info from a deeper perspective. The wisdom to see how it all fits together is priceless.

We already have enough analytical thinkers in the community.
We need YOU to dig deep within your intuitive spirit.
Our success depends on wisely choosing our path.

Are you able to do the inner work?

2 Wisdom

Our movement needs to reach the masses

3

One of the most important actions you can take to push the party forward is to share the information. Share the events, posts, articles and docs anywhere Blacks congregate.

Our message is simple and will resonate with most of our people if it is presented in a proper manner.
Black America is ready for this shift in paradigm.

If you can share selfies, you can share this powerful information.

3 Share, share, and share some more!

The party must spread thru in-person meetings

4

We will vote on a physical location for our headquarters.
We will also need to establish local chapters.
Building our party outside of the control of the social media technocrats is a key success factor.

We need you to organize local meetups.
Even if there are only 3 of you sitting at a coffee shop, you are setting the process of grassroots growth into motion.

**We don't host networking events.
We do the work during each session.**

4 Human interaction

Money is the catalyst for all political action.

5

The Blexit Fund PAC operates on 100% volunteer efforts.
There are no salaries in the budget.
Those who are participating simply have a love for our people.

Unfortunately, love won't put our candidates on ballots.
Love won't pay for communications platforms and legal expenses.
We need YOUR financial support to put these things in place.

This all sounds reasonable, now what?

Local Chapter Organizer

**This is one of the most important roles.
In order to be recognized as a national party,
we must have a presence in every state.
This means we need to launch multiple local chapters simultaneously.
For info on starting a local chapter, contact the outreach manager.

Party Leadership Roles

In the near future, we will need to form an official party committee.

We will need to fill numerous important roles.

If you feel like you can handle the responsibility, send us your resume and cover letter.

These are not just vanity jobs to make you feel important.

You will be required to invest time and energy into this role.

These roles will pay a salary once the party has its own committee & budget.
